DETAILED ACTION

Response to Amendment

1. Amendment filed on 8/9/2004 has been entered and made of record as Paper No. 8/2004. In Amendment, claims 19-34 have been cancelled. Claims 35-45 are newly added. Claims 14-18 and 35-45 are pending in the application.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 14-18 and 35-45 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Nowhere in the specification or in any Figures. 1-24 shows or discloses the limitation "an electrically resistive film in the recess to form a heater" and "a phase change material over said wall" in claim 14, line 6 and line 10. Clearly Fig. 22 shows the phase change material 290 is not formed on the wall of the recess 220. Also, the limitation "heater material" and the limitation "phase change material over said heater material in contact with said edge" in claim 35, line 3 and line 5. Clearly Fig. 22 shows the phase change material 290 is not in contact with said edge of the wall formed by heater material.

Claims 15-8 and 36-45 are also rejected because they depend on rejected claims.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claim 15 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 15 recites the limitation "the polysilicon film" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
